*National enforcement legislation published in the National Gazette (<http://www.et.gr/index.php/anazitisi-fek>) is available only in Greek

- II.** It is clarified that the former detergents registration system and the obligation of the registration number or the respective production code appearing on the product label/ packaging, have been annulled by the National Law 4254/2014 (National Gazette ΦΕΚ 85/A'/07.04.2014) (article 1, paragraph ΣΤ', subparagraph ΣΤ'. 5, points 7 α, β, γ, δ, page 1411). **Therefore, all registration numbers previously issued by the Detergents Registry are no longer valid and should not be used in any way.**

- III.** In case a cleaning product claims for additional biocidal, disinfectant, antiseptic, antibacterial etc. properties and/or actions, this product falls also under the Regulation (EU) 528/2018 concerning the making available on the market and use of biocidal products, as amended and in force. The national competent authorities for biocides, namely the National Medicine Organisation – ΕΟΦ: www.eof.gr and relation@eof.gr or the Ministry of Rural Development and Food: info@minagric.gr should also be conducted for information.
