Invitation to submit applications for software certification regarding Electronic Data Issuance

The Suitability Audit Committee for the certification of software regarding Electronic Data Issuance, operating at the IAPR, invites interested entities to submit a relevant application, including the required supporting documents and attachments of par. 2 of article 4 and annex A of decision A.1112/2025 of the Governor of the IAPR. The invitation remains open and applications will be reviewed on a priority basis, according to their submission date.

Applications are sent electronically to the email address ypahes@aade.gr with the subject line “*Application for software certification for Electronic Data Issuance*”. The electronic submission includes the application form completed and digitally signed. After submission, the applicant receives instructions from the IAPR via email (to the address from which the application was submitted) regarding the individual stages of the licensing process, as well as instructions for activating an account on the IAPR sftp server. The supporting documents for the licensing of the candidate Provider's software are uploaded to the sftp server, while at the same time they are also sent to the email address ypahes@aade.gr.

Applications are submitted according to the template of the YPAHES/EDISP Licensing Application Submission Form, which is available on the IAPR website.

The folder containing the supporting documents, which will be uploaded to the sftp server with instructions provided by the IAPR, will follow the structure of the YPAHES/EDISP SUITABILITY LICENSE_A.1112_2025 folder, also available on the IAPR website.

**THE CHAIRMAN
APOSTOLOS KOTZINOS**
